Many standard Goods are labeled with the AAMA or Hurricane Impact Certifications. Certification is based on the performance of a sample(s) of the product at the time of manufacture. Many standard Goods are labeled with National Fenestration Rating Council (NFRC) ratings. NFRC ratings are based on a combination of computer simulations and physical testing of product samples. Certifications and ratings typically apply to single products only; however certain factory-mulled or combined product configurations may also be certified.

Performance of individual Goods may vary and will change over time, depending upon the conditions of use. Certifications and NFRC ratings are not performance warranties.

Atrium will not be liable for any problem or damage relating to inappropriate or faulty building design or construction, maintenance, installation, or selection of Goods. Windows and doors are only one element of a structure; Atrium does not warrant that third-party certification of a building or project to any specific standard will be achieved through the use of any Goods.

The Goods, including all products, goods, materials, supplies, equipment, windows and screens, are not designed, tested or certified to, and will not, prevent falls. Under no circumstances does Atrium Windows & Doors® represent or warrant that the Goods can be used for fall prevention; Atrium shall not be responsible or liable in any manner for damages or bodily injury associated with or related to the failure of the Goods to prevent falls.
